

Regional Workshop on “Artificial Recharge Experience in the GCC Countries”

WORKSHOP PROGRAM

18:00-20:15 (Kuwait Standard Time)

Wednesday, 17 March 2021

Workshop Program	
(Kuwait Standard Time)	Session 1: Dr. Muhammad Al-Rashed (Chair)
18:00-18:05	Opening Speech: Dr. Mohammad Alrashidi - Energy Director, The General Secretariat of the Gulf Cooperation Council
18:05-18:25	Keynote Speech: Eng. David Pyne, ASR Systems LLC, USA <i>(Current Status of ASR Research)</i>
18:25-18:40	Invited Speaker 1: Professor Waleed K. Al-Zubari, Arabian Gulf University, Kingdom of Bahrain <i>(Identifying Optimal Locations for Artificial Groundwater Recharge by Rainfall in the Kingdom of Bahrain)</i>
18:40-18:55	Invited Speaker 2: Mr. Amitabha Mukhopadhyay, Kuwait Institute for Scientific Research, Kuwait <i>(Artificial Recharge Experience in Kuwait)</i>
Session 2: Dr. Yousef Al-Wazzan (Chair)	
18:55-19:10	Invited Speaker 3: Professor Ali Al-Maktoumi, Sultan Qaboos University, Sultanate of Oman <i>(To What Extent Can Managed Aquifer Recharge Contribute to Augmentation of Water Resources in Arid Areas: Sharing Experience from the Sultanate of Oman)</i>
19:10-19:25	Invited Speaker 4: Professor Mohsen Sherif, United Arab Emirates University, UAE <i>(Dynamics of Groundwater Levels and Salinity in ASR Systems)</i>
19:25-19:40	Invited Speaker 5: Mohamed Shamrukh, Professor of Environmental and Water Resources Engineering, Doha, Qatar <i>(Enhanced Recharge of Groundwater Aquifers in Qatar)</i>
19:40-19:55	Invited Speaker 6: Eng. Metib Al-Kahtani, General Directorate of Water Resources, Kingdom of Saudi Arabia <i>(Artificial Injection and Recharge in Saudi Arabia)</i>
19:55-20:15	Plenary Panel Discussions & Concluding Remarks <i>(Dr. Muhammad Al-Rashed, Professor Waleed K. Al-Zubari & Eng. David Pyne)</i>
