

Spectroscopy and NMR Theory and Application Course

Dates: 04 - 08 December 2022

Time: 09:00 a.m. - 02:00 p.m.

Fees: 300 K.D.

Objectives:

At the end of the course, participants will be able to:

- Understand the theory of spectroscopy and NMR.
- Setup and run an experiment.
- Do simple interpretation to the spectra and extract information.
- Observe the advantage of spectroscopy on other methods

Prerequisites: Not required.

Instructor: Mustafa Al-Shamali (PRC)

Participants: Technicians, oil industry engineers, power & water industry engineers. Diploma, bachelor, master, and Ph.D. in science.
