

# Training Courses January

2025

## Introduction to Membranes

**Dates:** 28 - 30 January 2025.

**Time:** 09:00 a.m. - 02:30 p.m.

**Fees:** 250 K.D.

**Objectives:**

**At the end of the course, participants will be able to:**

- Assimilate the main concepts of membrane technology.
- Realize the advantages-disadvantages of a separation process using membrane.
- Understand the mechanism of transport in membranes.
- Know the technologies offered for the petroleum industry.

**Prerequisites:** -Diploma of chemical technology or bachelor's.

- Degree in chemistry or engineering.

- Knowledge of the English language.

**Instructors:** Dr. Narjes Abul, and Dr. Andres Quesada Perez.

**Participants:** Chemical engineers or chemist developing their careers in the petroleum industry and especially involved with separation processes.
