

Protocols and Global Systems within the Work Environment

Dates: 21 -23 November 2022.

Time: 09:00 a.m. - 02:00 p.m.

Fees: 150 K.D.

Objectives:

At the end of the course, participants will be able to:

- Understand the principles of protocols and global systems, within the work environment.
- Improve employees participation and sub-contractor participation.
- Understand the principles of health, safety, and environment (HSE).
- Learn that hazard identification is meant to make the workplace and employees as safe as possible.
- Analyze or evaluate the risk associated with hazards.
- Determine appropriate ways to eliminate or control hazards.
- Apply occupational health and safety administration (OSHA), and standard regulations.

Prerequisites: N/A

Instructor: Dr. Salah Al-Enezi.

Participants: Participants with interest in global protocols within the work environment, who wish to broaden their knowledge in the field of safe working environment, personal protection equipment, and COSHH Practices.
