

Introduction to ASP Flooding

Dates: 03 - 05 October 2022.

Time: 09:00 a.m. - 01:30 p.m.

Fees: 250 K.D.

Objectives:

At the end of the course, participants will be able to:

- Establish a well-designed core flood.
- Apply a phase behavior test.
- Understand the role of chemicals (polymer, surfactant, and alkaline).

Prerequisites: PRC staff only.

Knowledge of the English language.

Instructors: Eng. Bader Alkandari, and Eng. Dalal Alrayahi.

Participants: Individuals with degree in petroleum or chemical engineering, who wish to broaden their knowledge on the uses of polymer, alkaline, and surfactants in core flooding.
