

Curve fitting Toolbox in MATLAB

Dates: 22 - 26 January 2023

Time: 09:30 a.m. - 01:00 p.m.

Fees: 250 K.D.

Objectives:

At the end of the course, participants will be able to:

- Fit curves and surfaces to data using regression, interpolation, and smoothing.
- design models and creative ideas.

Prerequisites: Basic MATLAB.

Instructor: Shaker M. Ebrahim (PRC).

Participants: (People who are expected to attend the course and their minimum academic qualifications):
B.Sc. in Engineering.
