

Training Courses November

2024

Fundamentals of the Fluid Catalytic Cracking (FCC) Process

Dates: 24 - 26 November 2024.

Time: 09:00 a.m. - 02:00 p.m.

Fees: 250 K.D.

Objectives:

At the end of the course, participants will be able to:

- Understand the basic chemistry of catalytic cracking.
- Understand the role of (FCC) in refinery.
- Become familiarized with the main mechanical equipment and their potentiality.
- Understand how the feedstock quality affects the process.
- Relate the operational variables.
- Understand the role of the catalyst and its limitations.
- know how to resolve typical process problems.

Prerequisites: PhD, engineer in chemical engineering or related area.
Degree in Chemistry.

Instructors: Dr. Narjes Abul, and Dr. Andres Quesada Perez.

Participants: Process engineers working in (FCC) or requiring understanding the process.
