

Training Courses December

2024

Quality Assurance, Water Sampling, Analysis and Evaluation

Dates: 22 - 26 December 2024

Time: 09:00 a.m. - 12:00 p.m.

Fees: 250 K.D.

Objectives:

Upon completion of the course, participants will acquire the following skills:

- Determine the Quality Assurance measures for water samples.
- Detection of the accuracy of field and laboratory results for Water samples.
- Understand method of groundwater and wastewater sampling and field measurements.
- Understand methods of samples analysis for groundwater and wastewater with microbial indicators.
- Evaluate the field data and laboratory results.
- Identify groundwater and wastewater quality standards for irrigation purposes.

Prerequisites: Diploma and University degrees in Engineering, Geology and Geography. Hydrogeology, Microbiologist, Chemistry, and Environment and Water Specialists..

Instructors: Dr. Adel Al-Haddad, and Mr. Mosab Al-Jeri, Ms. Farah Al Ajeel

Participants: Engineers, scientists and water mangers/employees.
