

# Training Courses January

2025

## Occupational Health and Risk Assessment

**Dates:** 12 - 16 January 2025

**Time:** 09:00 a.m. - 01:00 p.m

**Fees:** 250 K.D

**Objectives:** At the end of the course, participants will:

- Understand the concept of occupational health.
- Understand the occupational risk assessment methods.
- Identify the hazards, assess risks, select the best available control measures.
- Know the most frequent work-related diseases and how to minimize them.

**Prerequisites:** The participants will need sufficient English language to read, understand and discuss in the groups.

**Instructor:** Dr. Mufreh S. Al-Rashidi, and Mr. Meshari Al-Qallaf.

**Participants:** The course is applicable for all organizations, including researchers, laboratories staff, administration and support functions. The course is proposed for all individuals requiring an understanding and working knowledge of occupational health and risk assessment.
